with the publication:

The resolved chemical abundance properties within the interstellar medium of star-forming galaxies at $z = 1.5$

In consequence of Russia's invasion of Ukraine, UCPH together with the other Danish universities will suspend their collaborations with Russia and Belarus. The situation also gives rise to increased focus on IT security.

Read more here and see the video with UCPH Rector Henrik C. Wegener.

Almost all restrictions have now been lifted in Denmark! For UCPH-staff this also means that you no longer need to register your travels in the online form as previous.

For Covid-19 updates on campus please read here: UCPH and DTU.

On 05 February 2022, Aswin Vijayan gave a fantastic talk at the Astronomy on TAP event about Cosmological Simulations and Universes within computers.

Read more here and see the video with Aswin Vijayan and UCPH Rector Henrik C. Wegener.

OPPORTUNITIES & CALLS ◀

★ The Leon Rosenfeld Foundation offers grants for visits by young scientists to NBI. Typically, the Foundation’s grants are for visits by individual scientists for a few months duration, with a budget of DKK 30,000, or for support of young people attending schools at NBI, with a similar budget. Read more in the NBInfo mail of 18 January 2022 (if you have not received it, reach out to Secretary Helena Baungaard for this e-mail).

★ Horizon Europe H2020 - ERC Consolidator Grant (preliminary call) (UCPH link and DTU link or e-mail Johannes Brockdorff directly at jolb@dtu.dk) - deadline 17 March 2022

★ Webinar: “Introduction to Horizon Europe Collaborative Projects” from 14:00-15:30 on 22 March 2022 (only UCPH staff). Read more and sign up here.

★ DFF (Independent Research Fund Denmark) Sapere Aude Starting Grant. Link is here - deadline 23 March 2022

★ Webinar: “VILLUM Young Investigator” on 26 April 2022 from 10:00-11:30 (only UCPH staff). Deadline for sign-up is 21 April 2022.

★ EU Horizon Europe – ERC Advanced Grant 2022. UCPH Link is here. Deadline is 28 April 2022.

★ Villum Foundation: Young Investigator (preliminary call) - Read more here UCPH link and DTU link - deadline 01 June 2022

CAKE TALK PRESENTERS ✿

Thanks to all our Cake Talk Presenters!

- 03 February: Rohan Naidu (Harvard University): Solving Reionization with Resolved Lyman-alpha
- 17 February: Anne Hutter (Kapteyn Astronomical Institute): Astraeus: a framework to simulate early galaxies and reionization
- 24 February: Dr. Manuela Schuetze (Minddistrict GmbH, Berlin): It’s OK to not be OK - confronting the mental health crisis in academia

DAWN COSMIC DAWN CENTER
During week 7 and 8, many Danish families go on winter break and enjoy skiing holidays. This break was not recognized until the 1970s and nationally implemented in the 1990s here in Denmark.

As many other holidays would normally be in alignment with Danish religious celebrations such as Christmas or Easter, the winter break emerged from the lack of sunshine in the winter and the concern of well-being for Danish children.

More and more families would take their children out of school to go to north to Norway and Sweden or south to France and Austria for skiing. This resulted in school-classes being mostly empty and rarely full. Structure in the classroom and learning were compromised as the children were away for extended periods of time during the winter months. The Danish municipalizes recognized the problem and chose to integrate the winter break in all elementary schools. Read more here. Today, ski lovers can also take short weekends or even just a 1-day ski trip to Sweden from Copenhagen.

The vintergækker (snowdrop flowers) is considered the first flower of the year in Denmark. The white delicate flower can be found in most cities and in the Danish nature, where it often blooms in the early days of February. The vintergækker did not naturally belong or grow in the Danish nature. The flower naturally grows in Spain in the Pyrenees and in Kaukasus, but the flower was brought to Denmark in the 1400-century by monks and nuns.

You will also be able to find the eranthis flower growing at this time of the year, which in contrast is a beautiful rich yellow flower in the buttercup family of Ranunculaceae.
