

1st Author Pub Club

David Vizgan has joined the 1st Author Pub Club with a brand new published article!

We congratulate you David and we are very honoured to have you on board the DAWN Journey - Welcome to the Club! ☺

David Vizgan with the publication:

[Tracing Molecular Gas Mass in \$z \approx 6\$ Galaxies with CII](#)

NASA Hubble Fellowship

Congratulations to DAWN Fellow Seiji Fujimoto who has received one of the most reputable research fellowship in astronomy, the NASA Hubble Fellowship, for three years of independent research!

Current Visitors and Guests

Fabian Krause (the First Light Team at UCL) - working with Thomas Greve, Raul and Aswin at DTU.

Daniele Malesani (Radboud University) - working with Johan Fynbo, NBI.

Thomas Reynolds (University of Turku) - working with Johan Fynbo, NBI.

Dave Sanders (University of Hawaii) - working with Sune Toft, NBI.

Thomas Herárd (University of Sobonne) - working with Georgios Magdis at DTU and NBI.

Marie Curie Fellowship

Our DAWN Postdoc Shuowen Jin has been awarded the Marie Curie Fellowship!

Introduction: *The project FIRSTDUST (Far-Infrared to Radio Search for disTant Dust-obscUred galaxies and STructures) that will provide: a complete characterization of the dust-obscured star-formation rate density (SFRD) at $z = 2-6$, and robust constraints on the contribution of previously undiscovered galaxy (proto)clusters to the SFRD.*

Wonderful to have you with us Shuowen!

EASTER HOLIDAY'S AND DANISH TRADITIONS

What are **Gækkebreve**?

'Gække', translated to English, is a combination of 'teasing' and to 'guess'. Creating and sending these "snowdrop letters" is a unique Danish tradition. In the weeks before Easter, children cut out elaborate shapes on paper, then write a "teaser poem." The letter is anonymous but signed with a number of dots corresponding to the number of letters in the sender's name. If the recipient can guess who the *gækkebreve* is from, the sender owes the recipient an egg. If he/she cannot, they owe the sender an (chocolate)-egg. The letter is often accompanied by a **vintergække** (snowdrop flowers), which is considered the first flower of the year. [Watch and be inspired by this short YouTube tutorial.](#)

Cherry Blossom Trees and Sakura in Copenhagen! In locations around Copenhagen there are many of the beautiful pink and white Cherry Blossoms Trees planted and they usually blossom in April. The trees are beautiful and they only blossom for a short time once a year. A must see!

There are traditional and open spots at e.g. Kastellet/Langelinie at Østerbro to view the trees. [Find more about locations here](#) and read more about [Copenhagen Sakura Festival \(online due to Covid\) here](#).
