Niels Bohr Institute Summer Party

In the beginning of June, a summer party for the Niels Bohr Institute was held at the Court Yard of the old Niels Bohr Institute building. The party started with live music from four self-formed bands from NBI and Gabe Brammer from DAWN was a part of one of the bands.

At the party were also Ivanna, Cecilie, John, Guarn and Nanna.

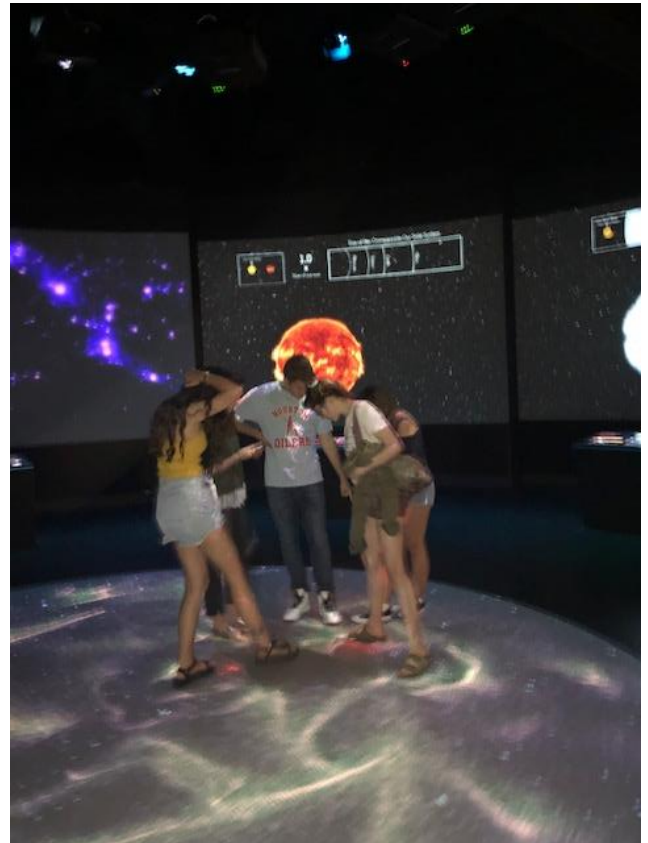

DAWN CPH Trip to the Planetarium

On 14 June, a group of Dawn'ers made a trip to the Planetarium, where they watched the movie Apollo 11. Apollo 11 is a new documentary, marking the 50th anniversary of the Moon landing. It is using real, but remastered, footage and audio from the mission, most of which has not been shown before.

After the movie there was time to play and explore the Planetarium.

New Hire: Clara Giménez Arteaga

On 01 July, Clara is joining our DAWN family.

Clara will work as a student assistant and help us with various things around the Center.

We are excited to be welcoming Clara on Monday!

In the month of July, we have two birthdays coming up: Jonatan Selsing [REDACTED] and Nanna Langer Jensen [REDACTED] – happy, happy birthday!

Since we started the birthday calendar, we have had an excuse to celebrate with cake twice! The celebrations for Jonatan and Nanna will be in August, with the upcoming birthdays for that month. We are looking forward to sharing a little cake!
